*	Comment. The aircraft type cannot be identified from the description. It is believed improbable that the planes have rigin	50X1-HUM
	landing gears. The planes are possibly Yak-21 trainers, The unus	ul-
	ly large number of nireraft of this type indicates that a pilot	50X4 LUINA =

***	Comment. The planes are probably P-39s or P-63s. No jet planes	anes
